RE: CITY OF BROWNSVILLE MS4 PROGRESS REPORT FOR FEBRUARY 2015

Dear Mr. Scott,

On December 4, 2014, you and Conner Franklin met with Jerry McClinton and me to discuss the current status of the City of Brownsville's MS4 Program and the City's plans to obtain and maintain compliance with its MS4 permit. On December 5, you sent a letter to Jerry McClinton requesting monthly progress reports. Since that time, monthly progress reports have been submitted. The report for February is below.

For the month of February, the following activities occurred:

- In January, it was reported that the City hired a Storm Water Manager, who will begin work at the City in March 2015. Preparation of office space for the new Storm Water Manager was on-going during February.
- The January MS4 Progress Report was submitted on February 18, 2015.
- Jerry McClinton has maintained construction site inspections.
- Due to the cold weather and ice/snow events, additional field work was not conducted, however, Thomas B. Lawrence began preparation of reporting forms and procedures to be utilized for Visual Stream Assessments beginning in the Spring.

Please let me know if you have any questions or wish to further discuss this report. You may also contact Jerry McClinton at 731-772-1212.

Sincerely Yours,

Thomas B. Lawrence, PE
